

GALAXY NGC 1232

REACH THE SKY IN YOUR HAND

- Collection minted in collaboration with ESO Observatory
- High-quality digital printing
- Decoration with magnifying lens
- The perfect gift for space enthusiasts

In each coin in the series you will find a reflection of the distant galaxies, nebulae and stars that fascinate astronomers and space enthusiasts around the world. More than just collectible treasures, this is a visual odyssey through the macrocosm. Each coin is not only a numismatic work of art, it's also a window into an infinitely distant world invisible to the human eye. Start your „Galaxies” coin collection today.
